PROFESSIONAL SUMMARY

Full-stack software developer based in Lagos, Nigeria, building reliable web and mobile applications and APIs with React, Next.js, TypeScript, React Native, Laravel and Node.js. Experience delivering products across e-commerce, fintech, real estate, automotive financing and logistics, from user interface through to database design and backend services. Comfortable owning features end to end, with a focus on responsive interfaces, clear architecture and maintainable code. Seeking a [Full-Stack / Frontend / Mobile] Developer role where I can contribute to products that solve real problems at scale.

KEY SKILLS

Frontend: React, Next.js, TypeScript, JavaScript (ES6+), Tailwind CSS, HTML5, CSS3

Mobile: React Native, Flutter

Backend: Laravel, PHP, Node.js, RESTful APIs

Databases: MySQL, PostgreSQL, MongoDB

Tools and Practices: Git, GitHub, API integration, responsive design, accessibility, [CI/CD], [Docker], [testing tools]

WORK EXPERIENCE

Full-Stack Developer (Contract) | Sendrap

2026

- Developed Sendrap, a delivery platform made up of a rider app, a customer app and a merchant app, plus a website and an admin dashboard
- Delivered the connected apps and dashboard as one system covering orders, riders, merchants and customers
- Technologies: Flutter, Laravel, MySQL, Express.js (real-time order tracking and maps)

Full-Stack Developer (Contract) | 9jaShopMate - E-commerce Marketplace

2026

- Built a mobile e-commerce marketplace with product categories, promotional deals, new arrivals, search, wishlist, cart and customer accounts
- Designed the interface for fast, intuitive product discovery on a scalable Nigerian online shopping platform
- Technologies: React Native, Laravel, MySQL

Full-Stack Developer | EstateZone NG - Real Estate Property Marketplace

2026

- Developed a mobile app for discovering houses, apartments, villas, offices and land for sale or rent across Nigeria
- Built property detail views covering photos, pricing, location, bedrooms, bathrooms and key specifications
- Designed a scalable backend for listings, search, favorites, property categories and communication between users and agents
- Technologies: React Native, Laravel, MySQL

Full-Stack Developer (Contract) | Ejccars Car Marketplace and Loan Pre-Order Platform

2025

- Built a car listing platform where users browse vehicles, apply for loans, contact sellers and pre-order cars with discounts
- Implemented financing logic and real-time listings with an optimized request flow for a smooth buying experience
- Technologies: Next.js, React, Laravel (API), MySQL

Full-Stack Developer | NexaPoint

2024

- Built NexaPoint, a modern Nigerian VTU and digital payment platform with web and mobile apps
- Enabled users to buy airtime, data bundles, cable TV subscriptions and electricity tokens, and to fund betting accounts instantly
- Technologies: React Native, Laravel, MySQL

EDUCATION

Higher National Diploma (HND), Chemistry/Biochemistry; National Diploma (ND), Science Laboratory Technology

Auchi Polytechnic, Auchi | Graduated 2024
